Forty Thousand Veterans in Line-Many Old Battle Flags Again Flung to the Breeze-Showing of Western

DETROIT, Mich., Aug. 5 .- The national ampment of the G. A. R. and the elebration of its silver anniversary formally opened yesterday with a grand

parade. Special trains bringing state delegations

from all parts of the country poured into the city all night and early in the morning. Others brought visitors not officially identified with the encampment by the thousand, and at 10 o'clock the streets

COM. VEAZEY. were almost impassable. The head of the procession loved at 11 o'clock and both in numbers and equipment the parade was one of the most magnificent ever made by the Grand Army. Most of the veterans wore new and handsome uniforms and there was no end of novel features. The Philadelphia contingent, nearly 500 strong, carried umbrellas, each one painted to represent a portion of the battle of Gettysburg. Sault Ste. Marie post was also represented by an um-brella brigade, each umbrella so painted that when combined they represent-ed Lake Superior and the city of the Soo. The name of each post along the shores of the great lake was painted in red, thus combining the lake, the city

and the national colors. A striking feature of the Michigan division was the fact that numbers of old battle flags were carried by the men who bore them during the war. Still another umbrella brigade was

that of George H. Thomas post No. 5 of Chicago. Their umbrellas were painted to represent a monster flag of the United States covering the entire post and extending nearly two squares. The Ohio division was very large and presented an imposing appearance.

Among those upon the reviewing stand were Gen. W. G. Veszey, commander-in-chief; Gen. Miles, of the army; ex-Gov. Oglesby, of Illinois; Govs. Fifer of Illinois, Campbell of Ohio and George W. Peck of Wisconsin; Gen. Lucius Fairchild, of Wisconsin; Gov. Winans, of Michigan; Mrs. John A. Logan, and over a hundred

The governor of a state is not often seen trudging along in the dust with the boys, but that sight was witnessed more than once yesterday. As the Nebraska G. A. R., 500 strong, with Department Commander Teeter and Gov. Thayer passed the grand stand it was impossible to tell whether the cheers were for the dignitied governor, the soldier boys or that venerable old fighter, which always provokes the cheers of the volunteer soldiers-Paul Vandervoort, past national commander-in-

Four hundred veterans of Kansas, led by Department Commander Timothy McCarthy, represented the grasshopper state, and each carried upon his breast the Kansas G. A. R. pin, bearing the figure of this destructive little insect. Past Department Commanders Anderson, Pond, Stewart, Booth, Guthrie and Captain Coulter, of the national council of administration, were in line. Commander McCarthy enjoys the distinction of being the only living man who was literally in at the opening and at the of the war. A soldier at For Sumter when the first gun was fired, he remained in the service and was at Appointation when the enemy surrend-

There was a wild cheer when the Missouri volunteers hove in sight. It was this state which had furnished William Warner, one of the most popular commanders-in-chief the G. A. R. has ever known, and every man who marched in line was recognized as one who in his devotion to the union had underg me the dangers of guerrilla warfare and seen families divided against themselves in the dark days of '63. Department Commander George W. Martin, the one-armed hero, who lost a limb the first day of Gettysburg, led his command of 800 men with dignity In the ranks were recognized the familiar features of "Private Cahoon," who was at Antietam, at Fredericksburg, at Gettysburg, and with Grant in all the bloody bat-tles after the silent soldier took command of the army of the Potomac. The Ransom post, of St. Louis, came in for its share of admiration. It was 200 strong and accompanied by the United States regular band. This is the first year the Ransom post ever attended an encampment when their commander. Gen. W. T. Sherman, was not present. His death is a deep personal grief to every member of this post, as indeed it is to every G. A. R. man.

The naval veterans were loudly cheered as they passed in review and the ancient starboard received many compliments.

The Sons of Veterans, 500 strong and in command of Commander-in-chief L. J. Webb, brought up the rear of the long procession. The boys marched in fine style and received marked applause along the entire line.

Later From Kentucky. LOUISVILLE, Ky., Aug. 5.—The latest returns show that the democratic state ticket carried in the election at about 25,000. Returns from eighty out of 119 counties give Brown (democrat) a net plurality of 27,027. The remaining counties in 1887, gave a net republican plurality of 2,580. The people's state ticket will probably not show so heavy a vote as last night's estimate, though it is not possible as yet to give a close ap-proximation as in some returns, it has not been reported.

So far as reported the alliance has elected its candidates against democration republicans in ten districts.

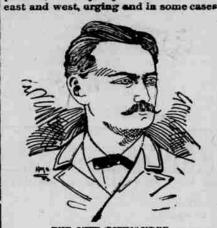

Discontented Laborers.

LONDON, Aug. 4.—Yesterday the strike of the London building trades entered upon the fourteenth week. Thirty-five hundred men, all members of unions, are out on strike. The men declare that their treasury is amply declare that their treasury is amply provided with funds to carry on the struggle, and £1,200 of strike money was paid on Saturday. It is claimed by the unions that they can outlast the employers. Industrial discontent is spreading in the metropolis. Of the 30,000 drivers of wagons in the city 6,000 have joined a union, with the object of improving their condition. THE NEW COMMANDER.

apt. John Palmer, of New York, Elected Commander-in-Chief of the G. A. R.—Ne New Department for Colored Veters

DETROIT, Mich., Aug. 7 .- While the

elegates to the G. A. R. encampment were getting together yesterday for the second day's session, it was aption of the silver anniversary—the color line imbroglio-was not destined to be disposed of as amicably as had been anticipated. The recommenda-tion of the commander-in-chief in favor of the creation of a provisional department for the colored veterans has met with a storm of op-position from unexpected quarters, and after the adjournment yesterday scores of delegates were in receipt of dis-

lemanding that the encampment should declare itself in no uncertain way on the right of the negroes to meet the outhern whites on an equal basis.

By a unanimous vote it was decided to proceed to nominations for com-mander-in-chief. When the roll of tates was called Wisconsin nominated A. G. Weissert, Ohio nominated Gen. S. H. Hurst, New York John Palmer and California William R. Smedberg. Gen. Hurst withdrew and on the first ballot Palmer received 322 votes, Weissert 250, Smedberg 177. On the third ballot Palmer was elected.

Capt. John Palmer was born on Staten island, N. Y., March 22, 1842. His first army service was in the Ninety-first New York volunteers. He enisted September 1, 1861, and remaine with the regiment until it was mustered out July 3, 1865. He was a participant in all its engagements and was badly

wounded at Five Forks. Henry M. Duffiield, of Detroit, was hosen senior vice-commander; T. S. Clarkson, of Nebraska, junior vicecommander; S. B. Payne, of Florida, chaplain, and B. T. Stephenson, of connecticut, surgeon-general.

Two reports were presented upon the question of separate departments for olored veterans in Louisiana and Misissippi, and after a lively debate the majority report, which was against dirision, was adopted by a large majorty. This was considered a great victory for the colored veterans.

OTHER GATHERINGS. DETROIT, Mich., Aug. 7.-A new naional organization with the title, "Comrades of the Battle Field," has been established. Its membership is to be limited to veterans who were ander the fire of the enemy not less than ninety days, or who were wounded and disabled from further services within that period. George E. Dalton, of St. Louis, was elected first major general commanding.

The national convention of the exrisoners of war adopted the draft of a bill to be presented to the next session of congress in behalf of soldiers who were in prison for sixty days or more providing they shall receive two dol-They also adopted resolutions strongly denouncing the proposed encampment of the blue and the gray in Chicago during the world's fair.

The sixteenth annual union of the United States veteran signal corps shows a membership of \$12. At a business session the reports of officers and committees were received and new officers and committees elected as fol-President, L. R. Fortescue, of Philadelphia; secretary - treasurer, Charles DeWitt Marsh, Boston; historian, S. Williard Brown, Boston; nonument committee, J. F. Dwyer, of Amsterdam, N. Y., chairman William Wise, of Lynn, Mass., J. R. Foraker, of Ohio, H. S. Taft, of Providence, R. I., and A. B. Capron, of Stillwater. The latter committee raised \$1,000 by subscription from those present toward erecting a monument to the United States veteran signal corps.

A KANSAS LADY HONORED. DETROIT, Mich, Aug. 7.—The fifth national convention of the ladies of the G. A. R. yesterday received the fraternal greetings of the G. A. R. encamp-ment and elected their officers for the coming year. National president, Mrs. R. J. Cartlege, of Kansas; senior vicepresident, Mrs. Alice Bishop, of Massa-chusetts; junior vice-president, Mrs. Nettie Sanford Chapin, of Iowa; treasurer, Mrs. Anna Geubb, of New Jersey; chaplain, Mrs. Alonzo Page, of Illinois.

A BANQUET. DETROIT, Mich., Aug. 7 .- Last evening a banquet was tendered by the cit-izens of Detroit to the officers and delegates of the G. A. R. encampment. ien. R. A. Alger presided. After an elaborate menu had been discussed Col. Henry M. Duffield delivered an ad-

dress of welcome. Engines Designed to Light Up the Trains and Consume Their Own Smoke. MILWAUKEE, Aug. 6.—The St. Paul road is building two engines at the Milwaukee shops which promise a revolution in locomotive building. The new engines consume their own smoke and have no smoke stack. They are fitted up with an electrical headlight, which is placed on a stand immediately in front of the boiler, thus giving the engineer an unobstructed view of the line ahead. The drive wheels are larger than on the ordi-nary locomotives, and intended for

greater speed. Rejoiging at His Defeat.

Jackson, Misa, Aug. 7.—There is great rejoicing at the Barksdale head-quarters in this city over the primary held in Senator George's home county. The alliancemen all over the state are The alliancemen all over the state are rejoicing. A dispatch from Carrollton says the primary resulted in a perfect Waterloo for Senator George. He has been routed, horse, foot and dragoons. Barksdale carried the county by a large majority. Senator George and his army of speakers have canvassed every part of the county and did all in their power to stem the tide, but all to no purpose. THE CLOSE

The Twenty-fifth National Encampm the G. A. R. Ends—The New Cour Administration—Woman's Relief

DETROIT, Mich., Aug. 8.—The national encampment closed yesterday. The quartermaster's report showed the finances to be in good condition. The per capita tax was reduced from three to two cents, and the new officers were installed.

The national council of administration of G. A. R. has been selected as follows: Alabama, A. W. Folgyham, Birmingham; Arizona, W. Christy, Phœnix; Arkansas, Isaac C. Parker, Fort Smith; California, Magnus Tait, Los Gatos; Colorado and Wyoming, John B. Cooke, Greeley; Connecticut, John C. Clark, New Haven; Delaware, William J. Blackburn, Wilmington; Florida, J. D. Hazzard, Eustis; Georgia Alfred Gutian, Augusta; Idaho, George L. Shoup, Salmon City; Illinois, H. S. Deitrich, Chicago; Indiana, Charles H. Meyerhoff, Evansville; Iowa, L. B. Raymond, Hampton; Kansas, J. D. Bar-ber, Girard; Kentucky, J. H. Browning, Louisville; Louisiana and Mississippi, Charles K. Lincoln, New Orleans; Maine, Washington Cushing, Foxcroft; Maryland, Alfred S. Cooper, Baltimore; Massachusetts, William H. Olin, Boston; Michigan, B. F. Graves, Arran; Missouri, J. B. Milner, Springfield; Montana, Patrick S. Fisk, Helena; Ne braska, John H. Erhardt, Canton; New Hampshire, B. J. Clark, Conway; New Jersey, M. K. Kinsey, Camden; New Mexico, Philip Mothersill, Eagle; New York, R. F. Kniff, Saratoga; North Dakota, W. H. Winchester; Ohio, E. S. Grant, Middleport; Oklahoma, C. D. Meanger, Oklahoma City; Oregon, D. B. Tuttle, Portland; Pennsylvania, William McClelland; Potomac, A. G. Hunton, Washington; Rhode

Island, Henry C. Luther, Providence; South Dakota, E. W. Caldwell, Sioux Falls; Tennessee, W. J. Smith, Memphis; Texas, Dr. D. C. Stoddard, Houston; Utah, C. O. Fairworth, Salt Lake; Vermont, D. J. Safford, Morrisville; Virginia, W. H. Aspinwall, Morton; Washington and Alaska, Frank C. Lendennin, Tacoma; West Virginia W. Hart, Buchanan; Wisconsin, E. Shore, Ashland; Indian territory, Robert W. Hill, Muskogee.

WOMAN'S RELIEF CORPS OFFICERS. DETROIT, Mich., Aug. 8.-The Womn's Relief corps convention was yesterdry morning occupied with committee reports. Officers were elected in the afternoon as follows: National presiient, Mrs. Sue A. Sanders, Delaware, III.; senior vice-president, Margaret R. E. Wiggins, Sabetha, Kan.; junior vicepresident, Mary Lyle Reynolds, Covington, Ky.; treasurer, Amelia A. Chaff-ney, Detroit, Mich.; chaplain, Miss Clara Barton, Washington.

DUN'S REPORT.

While Business at Many Points is Disap-pointing, the Feeling of Confidence In-creases. NEW YORK, Aug. 8.-R. G. Dun &

o.'s weekly report of trade says: While business in many lines is disappointing, the feeling of confidence distinctly increases. The belief increases that the country will be able t sell such vast quantities of grain abroad, and draw so heavily upon for eign supplies of capital that all home industries will be greatly stimulated Though at some northern points money markets are tight, supplies at western centers are adequate for legitimate business and mere speculation gets les help than usual. Depression in some great industries continues and is real but may be traced to causes obvious ly not permanent. Thus the iron markefacturer is much set back by inability of railroads to make purchase: because they fail to negotiate securi ties. Cotton manufacture is retarded by the extraordinary fall in the price of and consequent losses on goods made from material purchased early ir the past year, but still there is a fairly large demand and at some reduction in prices most goods are moving freely. At Philadelphia in most trades there is much complaint of slow collections.

Financial prospects have not changed. and though money on call is chear commercial loans are made with caution. Large failures have occurred. but none threatening financial disturb ance. The tone abroad is less straine and the bank of France has gained gold largely, but pressure in Europe must result if needs for breadstuffs are as large as are supposed. Foreign imports of merchandise in New York in July fall 19 per cent below the year, while the exports largely increase. The demand for money to move crops begins to be felt by many banks.

Killed at the Crossing.

SENECA, Kan., Aug. 8.—About & o'clock last evening as the passenger train was approaching the city it struck a carriage of people at the Sisson cross ing, two miles east. A. H. Burnett and Miss Frances Full-

r were killed outright.

jured, and Mvs. George Firstenberger | Chicago Tribune. and her two little children, aged 2 and 4 years respectively, were seriously injured.

The carriage was broken to atoms

the city. wreck occurred about 500 rods west of the depot here at 4:20 o'clock yesterday. The New York and Chicago limited express train on the Ft. Wayne road ran into an open switch, crashing into four heavy gondola cars standing on

The limited train consisted of five cars. The three front cars were thrown from the tracks, partially wrecking the front coach and totally wrecking the engine and freight cars. One passen-ger was killed and several trainmen injured.

Wreck on the Wabash. Sr. Louis, Aug. 8.—Between 12 and 1 o'clock this morning, a Wabash vesti-bule train, eastbound, which hauls New York and Boston sleepers, struck a fast freight train, which was pulling in on a switch, at Homer, Ill., badly damaging the passenger train's engine, mail and express cars, and wrecking four cars of grain in the freight train. A tramp named Daniel Feeley, who

CLOTH FROM WOOD.

Cut Down a Tree in the Morning and Wes It in Clothes at Night. Mitscherlich has applied the bisul-phite process for reducing wool to the production of a fiber from wood which can be spun into cloth. Thin boards or laths, free from knots, but of any desired width, are cut into strips in a direction parallel to the grain and are then boiled in a boiler containing a solution of sulphuric and ore-bisulphite acid. After boiling the wood is dried in the open air or in specially constructed dryingrooms. By being thus dried, the fiber, which is originally very weak and likely to break at the slightest strain, becomes comparatively strong and does not resume its very breakable condition on the addition of water. Th operations carried out in fitting this

wonderful production for the spinning wheel and the loom are as follows: The damp mass of pulp described above is dumped from the frame of the mixer onto a traveling endless cloth which carries the pulp to a pair of rollers which are sometimes plain and some-times provided with corrugations in the direction of their length, the ribs or cogs of one roller being made so as to gear into the recesses of the other, whereby they effect a simultaneous strong bending and squeezing power, The cutting of the material in passing through the corrugated rollers is avoid ed by causing the endless cloth to pass over the lower roller and by placing a canvas covering around the upper one

The pressed mass falls from the first set of rollers onto another endless cloth, which conveys it to a second pair of rollers, from which in turn it is conas passed down six endless cloths and through six pairs of rollers. By con-tinued treatment of the wood pulp with the bisulphite the fibers at length become as pliable and isolated from each other as so many strands of cotton or woolen yarn, and is said to make a strong and splendid thread for use in the textiles where a coarse filament is required.

The separation of the extractable matter is usually done after the fiber has been spun into threads or woven into cloth. Prof. Wayman says that with this process it is possible for a woodman to fell a tree in the morning and wear it as a suit of clothes or walk on it as a carpet by evening .- N. Y. Recorder.

MAN'S INHUMANITY.

It Is Not Only Manifested Toward Brute But to His Own Kind. It is right that maltreated dumberea tures should have their wrongs avenged, and the societies organized for the purpose of protecting them and bringing their tormentors to grief deserve the countenance and encouragement of the public. The man who wantonly misuses a horse or a dog or any other animal is, prima facie, a brute, and should be punished for his brutality. But when it comes to depriving the boa-constrictor of his dinner of live spring chicken or rabbit we hardly know what to say. Protest has been made from time to time in Europe and in America against serving caged reptiles of the constrictor species with animated ra-tions; but it should be considered that if not allowed to butcher for themselves they decline to eat meat at all. Moreover, it is quite certain that in their native jungle they would have foraged

on live stock. What then can be done? Would it be ight, on the plea of humanity, to reduce the menageric constrictor to the suicidal necessity of swallowing his own blanket in order to save from his clutches the fowl or rabbit which is sure to be killed under any circumstances? It is a nice case-susceptible of a world of moral illustration-and we leave its decision to the eminent philanthropists who have taken in it hand, feeling assured that equal and exact justice will be done to both sides, and not caring particular which whips

Perhaps it would not be amiss to sug-gest in this connection that the Society for the Prevention of Cruelty to Ani mals should extend the sphere of its la-bors so as to include a few classes of ill-used bipeds, such as children who are mercflessly whipped and starved by their brutal parents; poor sewing-girls who are swindled out of their hard earnings by soulless employers; broken-spirited wives who are habitually cuffed and kicked by drunken husbands, and the like. Nobody interferes to prevent such cruelties as these; and except in a few flagrant cases that force themselves upon the attention of the authorities, they are perpetrated with entire im-punity. We submit that a cudgeled woman or a seamstress swindled out of her daily bread deserves commiseration as much as a horse with a sore back or a rabbit in a boa's cage.-N. Y. Ledger.

-Plenty of Time. - "Now, gentlemen," said the eloquent, advocate, "I leave the case in your hands. In closing I have just one remark to make." And the experienced juror in the dark cor-Mrs. P. P. Fuller was seriously, ner of the box settled himself for though it is thought not fatally, in-

No Thunder.

There are regions of the globe where nearly every rain-storm is accompanied by violent electric explosions, while in others thunder and lightning are as rare as earthquakes. The worst climate for persons affected with a nervous dread of lightning is the east coast or San Domingo, where the sky

coast or San Domingo, where the sky, at the beginning of the rainy season, is often illuminated for weeks by nearly continuous electric twinkles and flashes. In western California, on the other hand, the equilibrium of atmospheric electricity is so rarely disturbed that many old residents of San Francisco have never heard a good thunder peal of the traditional window-shaking variety.—Golden Days.

The St. Louis Exposition

The St. Louis Exposition.

The Eighth Annual St. Louis Exposition will open Wednesday, September 2, and close Gtober 17.

The past history of this great industrial Exposition is one of inter-State pride, and its marked success for the past seven years is the guarantee that this year will equal in every respect and exceed in many ways the varied exhibits of the Arts, Mechanics and Sciences. The departments will have displays from every line of industry and business. The Art Department will have the best examples, to which will be added a face collection of oriental sussical instruments, lacquers, ivories, and other works of merit from China and Japan.

Gilmore's celebrated band will be in attendance each day, and furnish music in the afternoons and evenings.

America's general progress will be faithfully portrayed, and the revelations in all branches of industrial achievements will be unusually complete and instructive. All the railroads will give reduced rates.

"Our parrot is dead," wrote a little girl, "and a poll seems to have settled over the family."—Texas Siftings.
